

**PointClickCare®**

## THE LONG-TERM CARE INSIGHTS YOU NEED

The Outcomes You Want

### You are a health system looking for:

- Confidence in the transition of your patients to your LTPAC partners
- A view into the health status and location of your patients post-discharge
- Insights proving your LTPAC partners are achieving outcomes that reduce your risk

### What you should know about us:

- 60% of the US skilled nursing market uses our technology platform\*
- Our customer retention rate is a solid 99%
- We have the largest network of partners in the LTPAC industry

### We may be the match you need to:

- Better engage LTPAC patients post-discharge
- Manage your risk
- Drive the right outcomes

## Are you seeking Long-Term Post Acute Care partners?

The care continuum is changing. As a health system, you understand that delivering the highest quality of coordinated care requires partnerships that minimize risk and drive quality outcomes.

It is essential to find the right partners among Long-Term Post Acute Care (LTPAC) providers. Selecting and managing these partnerships with confidence requires visibility into their data — their proven quality metrics — along with the ability to follow your patient post-discharge.

85%

Health system leaders plan to expand LTPAC partnerships over the next three years.\*\*

The right technology partner delivers access to LTPAC insights, creating the high-value partnerships you need.

95%

Expect there to be challenges in creating high-value partnerships.\*\*

## Is PointClickCare the partner you're really looking for?

We understand the challenges health systems face and we're focused on building solutions that provide direct access to LTPAC partners through a single access point.

Our expertise comes from almost two decades of proven success connecting our customers to their network partners through a powerful interoperability engine – enabling them to share information that contributes to a truly coordinated and collaborative approach to delivering healthcare services.

With 60% (and growing) of the skilled nursing market already using our technology platform, PointClickCare is well positioned to support health systems in not only connecting to LTPAC providers, but creating the high value partnerships needed to manage risk, drive outcomes, and maintain visibility into patients once they have left their organization.

### Partner with the leading technology provider to the LTPAC industry.

- + 15,000 organizations use PointClickCare
- + 2 million+ admissions were processed in 2017
- + 1.1 million patient records are managed daily
- + Over 500 million medications administered monthly
