Remote Care

Helps your clients stay safe and healthy at home.

Remote Care is a collaborative system that helps people live independently while keeping their caregivers connected and informed, making it easy to provide support from virtually anywhere.

Remote Care lets you:

- ✓ Organize daily activities and provide verbal and visual reminders.
- ✓ Simplify the management of medications and chronic health conditions.
- ✓ Make health testing easy by using devices that transmit to the cloud automatically.
- ✓ Inform caregivers with text and email alerts.
- ✓ Keep everyone connected using video chat.

How Remote Care Benefits Your Clients

Remote Care is designed to help anyone who has a desire to live independently by connecting clients directly with caregivers and providing client monitoring 24/7. Benefits include:

- ✓ Safety “check-ins” to tell family and caregivers that everything is OK.
- ✓ Simplified reminders and instructions to improve medication management.
- ✓ Alert messages for missed medications, changes in health, or incomplete activity.
