

Lead the Evolution of Care at Home

Get access to the largest LTPAC network, top industry experts, and an uncomplicated web-based and mobile digital platform that thinks and works like you.

PointClickCare[®]
Care confidently.™

In the midst of digital and healthcare transformation, home health care is poised for exponential growth and evolution. By 2027, the global home health care market is expected to reach \$515.6 billion. Rising costs and growing populations will require new care models that will propel home health care to the forefront. Are you ready?

As the industry continues to expand and evolve, expertise combined with smart, savvy technology platforms are the catalysts you need to not only navigate but lead in the next generation of home health care.

You need PointClickCare.

With PointClickCare for Home Health Care, you get access to the largest LTPAC network, top industry experts, and an uncomplicated web-based and mobile digital platform that thinks and works like you.

Promote optimal patient outcomes with better connected care

If I could describe PointClickCare in one word it would be efficiency. It creates efficiencies along the entire continuum of care.

Erin Sprando

Director of Operations, Marquis

Seamlessly transition patient referrals with an integrated enterprise home care platform that digitally captures patient data at intake, at the point-of-care, and across care settings. Quickly visualize comprehensive patient insights, reduce manual errors, and prevent delays in care plan follow-through.

- **Close the gap on patient referrals:** Integrate Continuity of Care Documents (CCD) from any provider in the PointClickCare network.
- **Capture critical patient data in a single click:** Incorporate patient medication, diagnosis, allergy, and demographic information from our Master Patient Index.
- **Chart patient progress anytime, anywhere:** Securely document patient progress and clinician notes at the point of care or in the home office.

Empower clinicians and caregivers with intelligent, paperless workflow

PointClickCare's Home Health Care platform is the most balanced, compliant and accurate software that I have used.

Marvin Javellana
CEO, Better Care Home Health

Attract and retain the best clinicians in the industry with a simple, yet smart mobile-enabled platform. Designed by industry leading clinicians and technologists, our Care at Home Clinical mobile app thinks and performs the way caregivers do.

- **Operate more efficiently:** Reduce documentation time with powerfully simple online or offline point of care mobile capabilities.
- **Optimize case management:** Visualization of patient progress with care plans at-a-glance for easy, and effective case management review.
- **Oversee scheduling and time management:** View and manage all patient and clinician schedules with a comprehensive, configurable calendar and scheduler.
- **Organize and prioritize tasks, documentation, and insights:** Gain a holistic view of patient progress, performance, and payor status, with a customizable dashboard
- **Orient staff faster:** Reduce training and supervision time with an intuitive interface, displaying task-based interventions based upon agency defined goals.
- **Own medication safety:** Safely simplify medication management with an embedded search technology that enables clinicians to research, visualize, and identify drugs based on manufacturer imprints, colors, and shape.

Pave the path to profitability and compliance.

The PointClickCare Home Health Care solution will make your business run more smoothly and it will be a better operation moving forward.

Greg Von Arx
CEO, Recover Health Inc.

Get paid faster and improve cash flow with integrated revenue cycle management that balances value-based compliance with evolving payor payment models.

- Reduce rejected and denied claims with automated eligibility and benefits verification, charge validation, and claims scrubbing and processing.
- Realize maximum returns under the Patient Driven Groupings Model (PDGM) with Intake, Scheduling, Documentation; Coding; Billing, Payment and KPIs.
- Record and comply with Electronic Visit Verification requirements specific to state and federal stipulations.
