# Performance Insights

Commonwealth Care

The data is right at your fingertips. Having quick access to the data helps us analyze what our weaknesses are. This lets us focus on a particular area we need to improve on.

Shorayi Mazando  
RAI Consultant

## Performance Insights can help your organization:

### Adapt to PDPM

Understand the drivers that impact PDPM revenue and compare total revenue earned with annual budget.

### Optimize Revenue

Identify revenue drivers to achieve financial goals in the most optimal way.

### Assess Population Needs

Determine revenue distribution across residents and associated acuity.

Before it was a bit crazy, taking information from PointClickCare and pasting it into Excel. It was a four-step process. Performance Insights allows us to look at our financials, click a button, and streamline our process.
