

## Solution Spotlight

### Revenue Cycle Management Services Spotlight:

## Revenue Cycle Analytics

**PointClickCare®**

Transparency into centralized revenue cycle operations is essential to drive informed business outcomes and optimize revenue and cash flow. PointClickCare's Revenue Cycle Analytics complement our Revenue Cycle Management (RCM) services to enable full transparency into our Accounts Receivable (A/R) Resolution, Full Revenue Cycle Management, and Medicaid Pending Conversion services. When partnered with our RCM services team, your organization can look across your facilities, states and time to monitor KPIs, analyze trends, or optimize payer performance.

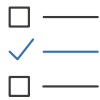

RCM services allow you to focus on resident care while we focus on the revenue cycle. Our solution is comprised of a centralized talent pool with expert knowledge in state, federal and managed care programs focused on lowering revenue cycle operating costs and higher collection rates. This scaled approach enables our clients to easily add new facilities and access advanced productivity and other revenue cycle technology, including our Revenue Cycle Analytics platform.

## Revenue Cycle Analytics

During any RCM services relationship, you have access to our online analytics portal and can analyze by facility, payer group, payer, insurance plan, state, region, division and time period:

- Revenue and census trends
- A/R balances and days outstanding
- Cash collection performance
- Bad debt write-offs
- Medicaid pending accounts and outstanding balance

These analytics provide full transparency into our work on your behalf and provide incremental benefits such as:

- Scoring your payers enabling more effective contract negotiations
- Identifying process challenges impacting collectability and cash flow
- Providing an integrated view of the financial performance of your entire organization

Learn how to evolve your financial practices  
to accelerate cash flow and maximize collections.
