

Solution Spotlight

Performance Insights

PointClickCare Performance Insights offers analytics that make it faster and easier to understand your organization's performance. It includes tools to improve financial viability and recognize the revenue drivers and quality metrics that impact PDPM revenue.

With market-oriented, near real-time data, you can make informed decisions with a comprehensive picture of your financial health.

Optimize revenue to impact profit margins

As an executive leader in Skilled Nursing, you set financial goals and budgets to ensure that your organization remains profitable.

With PDPM, it's more important than ever to analyze the contributors to and detractors from the bottom line. **Performance Insights** allows your team to manage revenue earned vs. budgeted, identify outliers that skew performance, and group your data according to PDPM components.

Create actionable insights from your financial data

Data helps you identify opportunities to improve your financial health.

With **Performance Insights**, you can analyze each of the PDPM payment components and key areas that derive the Case Mix Group (CMG) to identify opportunities for care.

The benefit of **Performance Insights** extends beyond PDPM. When you understand the revenue distribution across your population, your organization can develop targeted outreach to attract residents that meet an ideal profile.

Performance Insights helps your organization:

Adapt To PDPM

- Understand the revenue drivers that impact PDPM revenue
 - Compare total revenue earned with annual budget
 - Determine revenue split between facilities/regions and contribution rates
 - View trends in revenue and average CMI
-

Optimize Revenue

- Gain oversight of revenue earned vs. budgeted, outliers, case mix impact & breakdown by PDPM components
 - Identify revenue drivers to achieve financial goals in the most optimal way
 - Uncover outlier facilities/regions and opportunities for improvement
 - Identify areas for staffing/training improvements based on population acuity
-

Assess Population Needs

- Determine revenue distribution across residents and associated acuity
- Determine revenue split between the 6 payment components
- View revenue broken down by clinical categories, function score, and other end-splits
- Understand revenue distribution across the resident population and case mix impact
