

# QuickMAR

by PointClickCare

Flexible Medication  
Management Solutions  
For Long-Term Care  
Providers and Their  
Pharmacy Partners.

PointClickCare and QuickMAR connect your pharmacy to the communities you serve and simplify the entire medication management process, from receiving orders, to passing medications, to reordering and managing inventory. Our industry leading solutions make medication administration safer for residents and easier for staff at more than 10,000 communities across the nation. These include Assisted Living, Memory Care, Rehabilitation, Correctional Facilities and Group Homes for people with developmental disabilities.

Join over 700 long-term pharmacies that have chosen to integrate with PointClickCare and QuickMAR. Contact your PointClickCare pharmacy representative today to learn more about the benefits of being a partner.

## Grow Your Business

- Gain competitive advantage through a complete medication management solution as part of your service.
- Expand participation within the communities you serve.
- Simplify workflow for communities to procure medications and supplies for residents.
- Learn insights about your local market through PointClickCare's vast network.
- Obtain marketing collateral and other content through the Pharmacy Partner Program.
- Gain customers through collaboration with PointClickCare's pharmacy team.

## Improve Customer Experience

- Ensure staff administer the right medications, at the right time, with less errors through easy-to-use software.
- Reduce time and cost of staff onboarding with simplified workflows and online-training.
- Discover and eliminate drug diversions by tracking controlled substances, through the entire lifecycle.
- Improve resident safety with real-time MARs, dashboards and alerts.
- Ace the state survey through comprehensive medication records.

## Gain Operational Efficiencies

- Eliminate the time and cost of sending paper MARs to communities.
- Reduce STAT delivery requests by providing order status visibility.
- Streamline community communication through electronic processing reorders, census changes, and room transfers.
- Ensure resident safety through order accuracy - from the time it is fulfilled, received in the building, and administered to the resident.

PointClickCare became an extension of our own team helping us do more with less people. Our communities that use QuickMAR or PointClickCare have better retention and more confidence in the quality of the medication management services they provide to residents.
