Mealtime Solutions for Skilled Nursing

Deliver personalized dining experiences and streamline foodservice operations with a single, integrated system

Mealtime Solutions is an all-in-one foodservice management technology powered by MealSuite to help skilled nursing facilities coordinate end-to-end foodservice operations so staff can spend more time focused on caring for residents.

Simplify mealtime and stay on budget

Mealtime Solutions equips your foodservice staff with comprehensive tools, streamlining processes from procurement to production. It simplifies dining services by eliminating the need to navigate multiple systems and enhances efficiency by saving time on cumbersome manual tasks. To help you adhere to budget, we offer integration with key food vendors and automate communication between front and back-of-house teams to reduce food waste.

Mealtime Solutions enables you to:

- Seamlessly coordinate foodservice operations

- Reduce food waste and stay within budget

- Spend less time working across various tools

- Deliver a personalized, nutritious dining experience

How does Mealtime Solutions help?

Simplifies dining services to help you stay on budget

Our all-in-one solution includes modules to support you from procurement to meal delivery and uses bi-directional information flow with multiple food distributors for accurate costing and easier grocery ordering.

Differentiates your facility with a superior dining experience

Record resident likes and dislikes, substitutions, and special requests to improve meal satisfaction scores and support occupancy rates.

Transforms food safety processes and supports compliance with regulations

Enable staff to stay compliant through tools that support food safety monitoring and nutrient analysis reporting.

Add-On Options Tune Mealtime Solutions to Your Current and Future Needs

Go Paperless

The Go-Paperless bundle offers residents advance or table-side ordering via tablet for restaurant-style service. Touchscreen menu boards provide the ability to see menus and nutritional information in advance. In the kitchen, provide enhancements such as HACCP checklists, paperless production, and temperature tracking.

Self Ordering

The Self-Ordering module enables residents, family members, and staff to view menus, place orders on a mobile device or kiosk, or purchase items independently, including automated off-hours transactions.

Enterprise Management

The Enterprise Management module enables you to manage recipes and menus for consistency at the corporate level.

Mealtime Solutions is available in a variety of options to meet your needs.

Learn how you can offer personalized experiences at mealtime and simplify end-to-end meal delivery in one system.
