Applicant Tracking and Onboarding Built for Healthcare

Skilled nursing facilities and senior living communities grapple with unique staffing challenges, including regulations, high attrition rates, and a persistent demand for specialized talent. A significant 84% of skilled nursing organizations report that staffing shortages hinder them from operating at capacity, with extended vacancies resulting in substantial lost revenue.

The hiring process is complex and time consuming, with hiring managers dedicating extensive hours to each open position due to numerous manual and administrative tasks. However, automated tasks can help you reclaim up to 42 hours per hire and reduce your time-to-hire by 71%. PointClickCare has partnered with Applio to offer an all-in-one solution for hiring and onboarding.
