

PointClickCare®

Enter the Building Ready

With EHR for Practice Groups designed for senior care practitioners

One Login, One Patient Record

Review every patient across facilities
in one practitioner-curated view.

Focus on Patients Rather Than Documentation

↓ 15,700 hours
of estimated documentation time savings
produced over one year with AI scribes¹

↑ 5 minutes
of time returned per note
with Ambient Scribe²

Ambient Scribe

Focus on your patients
while AI documents
at the point of care.

Identify At-Risk Patients

1 in 4

patients discharged to a skilled nursing facility are readmitted within 30 days³

78%

of those readmissions are considered potentially avoidable³

Predictive Return to Hospital (pRTH) Risk Stratification

Identify at-risk patients before your visit so you know who to prioritize, helping reduce avoidable readmissions.

One Connected Platform at Every Visit

EHR for Practice Groups

Work from one ONC-certified record, shared with the facilities you serve and part of a network trusted by over 30,000 provider organizations.

EHR for Practice Groups is an all-in-one solution—it connects us to the right data, improves our documentation and billing, and ultimately lets us treat patients better because we're not chasing information anymore.”

Dr. Rashid Atique
CEO, Transitional Care Physicians²

See What “Enter the Building Ready” Looks Like in Practice

Our eBook shows how EHR for Practice Groups arms practitioners with the documentation, patient context, and team coordination they need before the first visit—so time in the building goes to care, not catch-up.
